EXPERIENCE

Fintology   **Aug. 2023 – Present**
Frontend Developer
- Fintology is an AI powered software that allows users to access capital regardless of their current score, income, business model, or resources! ([fintology.ai](#)).
- As the Frontend Developer at fintoloy.ai, I played a pivotal role in designing and implementing user-friendly and responsive web applications, collaborating closely with cross-functional teams to enhance the platform's overall user experience and functionality.
- Utilized HTML, CSS, JavaScript, and popular frontend frameworks (e.g. React) to create interactive and visually appealing web interfaces.
- Implemented performance optimization techniques, such as code splitting, lazy loading, and image optimization, resulting in faster load times and improved website performance.
- Proactively identified and resolved frontend bugs and issues to maintain a high level of platform reliability.

Octaply   **Jun. 2023 - Aug, 2023**
Frontend Developer
- Octaply is an AI powered Job application automation tool to automate job search, It Auto Applies to 300+ Jobs Monthly, Tailors Resume to Each Job, & Amplifies HR Selection Odds. ([octaply.ai](#))
- Collaborated closely with product managers, designers, and back-end developers to transform concepts into functional, visually appealing front-end interfaces.
- Leveraged HTML, CSS, JavaScript, and advanced frontend frameworks (e.g. React) to create dynamic and responsive web solutions.
- Performed comprehensive testing and debugging to ensure optimal functionality.
